

Workshop on Isolation and Culture of Mouse Spermatogonial Stem Cell

This workshop includes theoretical and practical sessions. The theoretical aspect includes:

- Development of primordial germ cells
- Development of spermatogonial stem cells

In the practical session we aim to educate:

- Isolation of mouse spermatogonial stem cells from mouse testis
- Culture and passage of mouse spermatogonial stem cells

This workshop is suitable for graduates and students of all academic levels in biology, paramedical, and medical fields. A previous knowledge on principles for cell cultivation is required.
